

Multi Property Report Integration Onboarding Guide

What is the Multi Property Report for?

The Multi Property Report shows you key performance indicators like occupancy and RevPAR aggregated for all or a selection of your properties. You can use it like the General Manager Report, but for all your properties.

What data is used by the Multi Property Report?

The Multi Property Report requests the Performance API of apaleo. No data, in particular no personal data of your guests, will be stored in our systems.

How do I install the Multi Property Report app?

It is easy:

1. Find the Multi Property Report app in the apaleo Store.
2. Click "Connect to apaleo" link.
3. Confirm the permissions required.

What is the best way to trial the Multi Property App?

After you have connected the app, the 30-day free trial starts. Afterwards we will contact you regarding your invoice details.

How much does Multi Property Report cost?

You pay 5 € per month plus VAT for each hotel in your account.

How do I disconnect Multi Property Report?

Just disconnect the Multi Property Report app in apaleo from the My Store Apps page. We won't charge you if we don't see any activity in a billing period.

You have another question?

Do you need a specific feature or do you have a question about billing? Please do not hesitate to ask:
